

CFI Open Forum - Teaching Stalls and Spins. Open to all Pilots

The FAASTeam is holding a CFI Open Forum, Teaching Stalls and Spins. Paul Lancaster, Chief Flight Instructor, Lane Aviation Academy will facilitate an open discussion with focus on Loss of Control - In Flight (LOC-I) fatal accidents. Because LOC-I is the number one leading cause of fatal aviation accidents, followed by System Component / Power Plant Failure, which usually ends up as a LOC-I event because of the "startled response". Virtually all LOC-I accidents end up in a stall / spin fatality.

Directions: From I-5, (exit 195B). Turn west on Beltline toward Florence (under the overpass). Take exit 6, for Highway 99/Airport. Turn left on Hwy 99, proceed to Airport Road. Turn left on to Airport Road, and stay on Airport Road. Parking is at the end of Airport Road, and the main office for Flight Technology/Lane Aviation Academy is on the east side of the parking lot.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
